About Us.

At GIMT Group of Education, we believe that education is not just a process—it is a purpose. Established in 2005, GIMT was born out of a collective dream shared by forward-thinking educators, technocrats, and social reformers, who envisioned a learning institution that would go beyond traditional methods and truly reach every learner—irrespective of their background or circumstance.

Under the aegis of our parent company, GIMT DecaMibiTech World Pvt. Ltd., a pioneering Ed-Tech company, we have built a platform that merges the values of holistic education with the tools of modern technology. Recognized under the Startup India mission and certified by ISO 9001:2015, we have always held ourselves to the highest standards of quality, innovation, and integrity.

Our Philosophy

At GIMT, we don't just deliver education—we build futures, ignite minds, and open doors. We understand that each learner is different, and therefore, we create flexible, personalized, and practical learning journeys that reflect both their goals and their challenges.

We are proud to be part of India's educational transformation—serving as a bridge between aspiration and achievement, between talent and opportunity.

VISION & MISSION

Vision

To be a nationally respected and globally recognized institution that transforms lives through inclusive, innovative, and industry-relevant education—empowering individuals from all backgrounds to achieve personal growth, professional success, and lifelong learning.

We envision an India where education breaks barriers, bridges communities, and builds a smarter, self-reliant society—equipped to lead in the digital, technical, and entrepreneurial future.

Mission

- **To Deliver Quality Education**

Provide career-ready, certified education in Engineering, Management, Education, Pharmacy, Vocational, and Paramedical streams, in collaboration with recognized universities and boards.

- **To Embrace Innovation**

Offer modern, tech-integrated courses like Robotics, Memory Science, and CMSED to prepare students for future industries and healthcare needs.

- **To Ensure Access and Flexibility**

Make education available across rural and urban India through online, distance, and hybrid learning platforms—empowering school students, college youth, working professionals, and aspiring entrepreneurs alike.

- **To Guide with Purpose**

Provide structured career counseling, mock test platforms, and skill development programs that foster confidence, clarity, and competitive edge in every learner.

WHAT WE SERVE?

- **Robotics Science & AI** – preparing schools and colleges for the era of automation and AI.
- **Memory Science** – a revolutionary approach to smart learning, brain training, and cognitive development.
- **CMSED (Community Medical Services & Essential Drugs)** – a golden opportunity for rural health practitioners and medical enthusiasts looking to serve and uplift communities.
- **Mock Test Platforms** – tailored for school exams, competitive exams like NEET, JEE, UPSC, SSC, and others.
- **Recorded & Online Courses** – supporting the needs of school students (Class 6–12), college youth, and working professionals.
- **Matric & Intermediate (10th & 12th Certificates)** – provided legally and respectfully, with complete academic and administrative support.

TO WHOM WE SERVE?

- **School Students (Class 6–12):** With subject-wise recorded classes, doubt-clearing sessions, and robotics learning labs.
- **College Youth & Aspirants:** Offering skill development, mock tests, internships, diploma and degree programs aligned with industry needs.
- **Working Professionals:** Flexible programs in IT, Business, Education, and Healthcare to boost career advancement.
- **Healthcare Enthusiasts & Practitioners:** CMSED and paramedical programs designed to serve rural healthcare with ethical and professional training.
- **Entrepreneurs & Educators:** Training and resources to run franchise centers, learning hubs, and digital learning units.

WHAT MAKES GIMT UNIQUE?

Multi-Disciplinary Offerings

- From Engineering and Management to Pharmacy, Teacher Education, Paramedical, Vocational Skills, and Online Learning—GIMT serves learners across age groups and professions.

University Collaborations

- Our programs are affiliated with recognized boards, career-ready universities, and skill-development agencies to ensure learners receive genuine and industry-relevant certifications.

Future-Focused Curriculum

- We offer specialized programs like Robotics Science & AI.Memory Science, CMSED Healthcare Courses, and AI-supported Mock Test Platforms—designed for school, college, and competitive exam aspirants.

Legal Academic Certification Support

- Through GIMT, students can legally pursue their Matric (10th) and Intermediate (12th) certification via trusted open schooling boards—especially helpful for dropouts, working professionals, and second-chance learners.

FOUNDER'S MESSAGE

Dear Students, Parents, Partners, and Well-Wishers,

It is with immense pride and heartfelt gratitude that I welcome you to the GIMT Group of Education.

When we laid the foundation of GIMT back in 2005, our vision was simple yet profound—to create an education system that is inclusive, relevant, and future-focused. We wanted to reach not just the privileged few in cities but also the dreamers in small towns, rural villages, and underserved communities who deserved a fair chance to shine.

Over the years, we have transformed that vision into a living, breathing reality. Through the power of technology, collaboration, and compassion, we have built an ecosystem that combines academic excellence with career-readiness, affordability with authenticity, and tradition with innovation.

Today, under the banner of GIMT DecaMibiTech World Pvt. Ltd., we stand as a recognized Ed-Tech force—Startup India registered, ISO 9001:2015 certified, and committed to equipping India's youth with education that matters. From engineering to management, from vocational skills to robotics science, from distance learning to healthcare training, we are proud to offer pathways that lead not just to degrees, but to dignity, opportunity, and purpose.

What keeps us grounded is our belief that education must evolve—not just in content, but in delivery, relevance, and reach. Whether it's a student from a metro city or a child in a remote village, they should both have access to the same quality of learning, guidance, and future.

At GIMT, we are not just educating students—we are nurturing entrepreneurs, innovators, community leaders, and nation builders.

To every learner who chooses GIMT: I want you to know that your journey here is not just about clearing exams—it's about discovering yourself, exploring your potential, and becoming someone the world can rely on.

Together, let us build a smarter, stronger, and more inclusive India—one student at a time.

With warm regards and best wishes,

Warm Regards

Md. Sarwar Ali Khan

Founder & CEO

GIMT Group of Education

UNIVERSITY PROGRAMME

Your Gateway to Recognised, Career-Ready University Programs

At Gimt Group of Education, we believe that quality education should be accessible, flexible, and truly recognised. That's why all the university programs we offer are approved under the UGC Act of 1956 and backed by top regulatory bodies like: AICTE ,BCI ,PCI ,NCI/INC ,AIU ,NCTE and DEB.

Learn Your Way – On Campus, Online, or at Home

We understand that every student has a different lifestyle and goal. That's why we offer programs in:

- **Regular Mode** – Full-time, campus-based study
- **Online Mode** – Learn from anywhere with digital tools
- **Distance Education** – Flexible and self-paced study from home.

Why GIMT Group for University Courses?

- Government-approved university degrees
- Recognised in India and abroad
- Career-focused and industry-relevant courses
- Flexible learning for working professionals and students alike
- Supportive faculty, mentoring, and counselling
- Affordable fees with easy EMI options available

COURSES THAT MATCH YOUR PASSION & CAREER GOALS

Whether you're just starting out or upgrading your skills, we offer programs in a wide variety of fields:

01

Technical & Engineering

B.Tech, M.Tech, Diploma, Polytechnic and more

02

Management & Business

BBA, MBA, PGDM with specialisations in HR, Marketing, Finance, and Entrepreneurship

03

IT & Computer Applications

BCA, MCA, AI & Data Science, Cybersecurity, Software Development

04

Paramedical & Health Sciences

DMLT, BMLT, OT Technician, Radiology, Physiotherapy, EMT, etc.

05

Nursing

GNM, ANM, B.Sc Nursing, Post Basic Nursing, and Community Health Nursing

06

Law

LLB, BA-LLB, LLM, Certificate Courses in Cyber Law and Human Rights.

07

Education & Teaching

D.El.Ed (BTC), B.Ed, M.Ed, and special programs for Early Childhood and Inclusive Education.

08

Traditional Arts, Humanities & Commerce

BA, MA, B.Com, M.Com, B.Sc, M.Sc in History, Hindi, English, Sociology, Political Science, etc.

09

Vocational & Skill-Based Programs

Courses in Hospitality, Retail, Fashion Design, Electrician, ITI Trades, Beauty & Wellness, and many more

ROBOTIC SCIENCE

At Gimt Group of Education, we believe that the future belongs to creators, innovators, and problem-solvers — and it all begins with Robotics Science.

In line with the National Education Policy (NEP) 2020 and recent Government of India guidelines, the integration of robotics, coding, and AI has become a mandatory step for all progressive schools and colleges. The aim is clear: prepare students not just for exams, but for the future world of automation, intelligent machines, and digital transformation.

That's why Gimt is proud to offer a complete, hands-on Robotics Science Curriculum, carefully designed for:

- School Students (Classes 6 to 12)
- College Students (Across Science, Engineering, IT & Vocational Streams)

Curriculum Aligned with NEP & CBSE/State Boards

Coding & Automation Training

- Scratch, Arduino, Python, IoT, Machine Learning, and Artificial Intelligence basics

Robotics for College Students

- Practical learning in automation, mechatronics, and industrial robotics for engineering and IT students

Project Work & Innovation Labs

- Science fair projects, national-level robotics competitions, and in-house innovation challenges

NEP-Aligned Certification Programs

- Recognised certifications to help students build tech portfolios for higher education and careers

AI COURSES

In today's fast-evolving digital era, Artificial Intelligence (AI) is not just a buzzword—it's a game changer. At GIMT Group of Education, we are proud to offer comprehensive AI Online and Offline Courses designed to equip students, professionals, educators, and tech-enthusiasts with the knowledge and tools required to thrive in the AI-driven world.

Our courses are crafted to suit various learning needs—from school students (Class 6 to 12), college youth, and working professionals to entrepreneurs looking to adopt AI in their businesses. Whether you prefer the flexibility of online learning or the interactive nature of classroom sessions, we provide both formats to ensure accessibility and engagement.

Course Highlights

- **Introduction to AI & its applications**
- **Machine Learning Basics**
- **Data Science and Analytics**
- **Natural Language Processing (NLP)**
- **Computer Vision**
- **Robotics & Automation**
- **Ethical AI & AI in Society**
- **Project Development & Capstone Work**

MEMORY SCIENCE

In today's fast-paced academic world, students are expected to remember more, understand faster, and perform better — all at once. But no one really teaches how to learn or how to remember.

That's why Gimt Group of Education is proud to introduce a unique and life-transforming course in Memory Science — designed especially for school and college students who want to study smarter, not harder.

What is Memory Science?

- Memory Science is the art and science of:
- Boosting brainpower
- Strengthening memory
- Improving focus and concentration
- Enhancing recall speed and long-term retention
- Using creative techniques for faster learning

It is a subject that goes beyond textbooks, teaching students how to master their mind and apply it in academics, exams, and real life.

- Struggling with remembering long answers or formulas?
- Taking too much time to revise for exams?
- Reading but forgetting what was studied?

Feeling stress and pressure before tests or competitive exams?

Memory Science solves these problems by giving students the right tools and techniques to learn faster, retain longer, and recall smarter.

RECORDED CLASSES

Online & Recorded Courses for School Students (Class 6 to 12)

— Learn Smarter. Dream Bigger. Grow Faster.

At Gint Group of Education, we believe that school is not just about passing exams — it's about preparing for life. That's why we've created a powerful range of online and recorded courses designed especially for students of Class 6 to 12 — across Science, Commerce, and Arts streams.

Our platform blends academics with skills, projects with personality, and learning with fun — helping every student grow into a confident, capable, and future-ready individual.

What We Offer for Students (Class 6 to 12)

Academic Courses (CBSE/State Board-Aligned)

- Engaging video lessons, topic-wise explanations, practice tests, and project-based assignments — everything you need to score better and understand deeper.

Computer & Digital Literacy Courses

- From basic computer skills to coding, typing, MS Office, Python, website design, and more — made simple and interactive for school students.

Foundation & Competitive Exam Courses

- Strong basics for Olympiads, NTSE, NEET, JEE, CUET, and other entrance exams. Build clarity and confidence from an early stage.

Skill Development Courses

- Public speaking, communication, financial literacy, time management, leadership, teamwork — real-life skills taught in student-friendly ways.

Project Work & Educational Tours (Virtual & Physical)

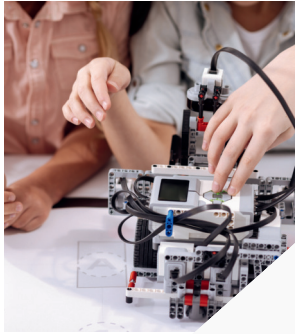

- We guide students to create creative project work and reports for school, science exhibitions, and competitions. Plus, virtual project tours to industries, museums, science centers, and more.

Entrepreneurship & Innovation Program

- Young minds can do big things! Learn how to think like a leader, build a startup idea, and solve real-world problems.

TECH & SKILLS

Empowering Futures with Technical & Skills – In India & Abroad

At Gimt Group of Education, we understand that today's youth need more than just degrees — they need practical skills, industry exposure, and real job readiness.

To fulfill this mission, Gimt proudly offers a wide range of career-oriented technical courses — tailored for:

- School & College Students seeking job-ready skills
- Professionals upgrading their qualifications
- Job aspirants targeting Gulf countries and industrial careers in India

Our Job-Focused Technical & Practical Courses

Fire & Safety Management

- Covers fire prevention, control systems, emergency rescue, workplace safety, and safety audit techniques.

Industrial Safety Management

- Focuses on accident prevention, risk identification, environmental safety, health regulations, machinery handling, and legal frameworks.

Quality Control / Quality Assurance (QC/QA)

- Teaches inspection methods, ISO standards, product testing, quality checks, and documentation processes.

Building Management Systems (BMS)

- Smart building operation training — includes electrical systems, HVAC, elevators, surveillance, energy efficiency, and fire control systems.

AutoCAD (2D & 3D Design)

- Learn architectural drafting, mechanical drawing, product designing, blueprint reading with latest AutoCAD software tools.

Accounting with Tally, GST & Basic Finance

- Covers practical accounting, Tally ERP 9 & Prime, GST return filing, billing, and small business bookkeeping.

CMSED COURSE

A Golden Opportunity for Rural Health Practitioners & Medical Enthusiasts

At Gimt Group of Education, we believe that these dedicated individuals deserve a fair chance to upgrade their knowledge, legalize their services, and continue helping their communities without fear.

That's why we are offering the CMSED (Community Medical Services & Essential Drugs) course — a recognized pathway to become a Registered Medical Practitioner (RMP) in the domain of Primary Healthcare.

About the CMSED Program

- ·D.Voc in CMSED (2 Years Diploma)
- ·B.Voc in CMSED (3 Years Bachelor's Degree)

This course is specially designed for:

- Local/rural practitioners already practicing without a valid degree
- Health workers, compounders, or helpers working in clinics or dispensaries
- Traditional medicine practitioners looking for legal certification
- Students from rural areas seeking a career in healthcare without NEET
- 🇮🇳 Individuals aiming to serve in primary healthcare, especially in rural India

Key topics include

- Human Anatomy & Physiology
- Basics of General Medicine
- First Aid, Minor Injuries & Emergency Protocols
- Primary Healthcare Systems & Referral Management
- Nutrition & Preventive Health Practices
- Public Health, Immunization & Family Planning
- Use of Essential Drugs (as per WHO & ICMR lists)
- Disease Awareness, Diagnosis & Safe Treatment Guidelines

MATRICULATION & INTERMEDIATE

Now Get Your Matric (10th) & Intermediate (12th) Certificates – Easily, Legally, and Respectfully

Not everyone's educational journey is the same. Many bright students pause their studies due to personal, financial, or social reasons. At Gimt Group of Education, we believe that no dream should end due to a break in formal education.

Jamia Urdu Aligarh

– A historic and UGC-listed national education board

BOSSE (Board of Open Schooling & Skill Education), Sikkim

– A government-recognized open school board for modern education

Who Can Apply Through Gimt?

- Human Anatomy & Physiology
- Basics of General Medicine
- First Aid, Minor Injuries & Emergency Protocols
- Primary Healthcare Systems & Referral Management
- Nutrition & Preventive Health Practices
- Public Health, Immunization & Family Planning
- Use of Essential Drugs (as per WHO & ICMR lists)
- Disease Awareness, Diagnosis & Safe Treatment Guidelines
- Key topics include

What We Offer at Gimt

- Direct Exam Appearance for 10th or 12th based on eligibility
- Guidance in exam form filling, subject selection, and center allocation
- Help with admit card, study material, and model papers
- Preparation through online/offline classes and mock tests
- Support for language, science, arts, and commerce streams
